Thank you. They called in because it has been a few months since the trash bin has been collected and it was starting to overflow. Whoever placed it there seems to no longer be maintaining it.

Hi,

As much as we don't want to loose receptacles if it's not being serviced by LASAN and the adjacent property owners wants it removed we have no objection to removal.

This might have been an old street furniture installation as we saw a few others in Lincoln Heights.

Pepe had an inventory done a few years ago before the 5k Receptacle Executive Directive was issued.

Thanks,

Jose Rodriguez, Deputy District Director

LA City Councilmember Gilbert Cedillo

Hi Karina, how are you?

That receptacle might belong to a NC.

Jose

Please advise on how you want us to proceed . Thank  
you.

Hi Bladimir,

This seems to be an abandoned trash bin. The owner's son called our office. As it does not belong to a BID or CD 1- Can we please have it removed? If it's not on anyone's current pickup route we don't want it to continue collecting trash without being addressed.

Thank you!

Hi Karina,

That is my area. THere is no BID in that area. THey do look like the local BID's trash receptacles, but they certainly would not have put them there.

The business is Cheers and Beers. If they did not put them there then they can be removed as far as we are concerned.

Bill

Good Afternoon Everyone,

We received a call of an overflowing trash bin at the address listed in the subject line. It is located in front of a business. The call came from the owner's son who stated the bins did not belong to them.

Sanitation had referred them to us. We checked with the BIDs in the area and it is too far out of their space for them to have set it up either. I am writing to see if this is one of the bins under CD 1? The constituent stated that it had not been picked up in

over 2 months (so it seems to have been getting addressed till then).

Looking forward to hearing from you.

Thank you!
